

Atlanta Housing Authority
REQUEST FOR QUOTES #2018-0091
ADDENDUM #1

Type:

Revision to the Sample Size Requirement

Rationale:

Revise the sample size requirement to allow more expert input from the Respondents on statistically significant sample sizing, across demographic groups and housing program types.

Current Scope of Work:

Prior to launching the Comprehensive Resident Assessment, the firm shall include in its design the agreed-upon sample size for the Comprehensive Resident Assessment as indicated in Appendix A, including the number of small focus groups designed to provide feedback on survey instruments and/or validate findings with respect to AHA's Resident Demographics.

Revised Scope of Work:

Prior to launching the Comprehensive Resident Assessment, the firm shall include a sample size agreed-upon by AHA, including all data collection methods such as the number of surveys, interviews and small focus groups designed to provide feedback on survey instruments and/or validate findings with respect to AHA's Resident Demographics. The sample size shall include a statistically significant number of residents across demographic groups and housing program types.

Revised Appendix A: Total Population for the Comprehensive Resident Assessment

Resident Demographics:	Homeflex	Mixed	AHA-Owned	HCVP: In City of Atlanta	HCVP: Outside City of Atlanta	Total Residents
<i>Seniors (62+)</i>	719	586	385	1,523	317	3,530
<i>Adults (18-61)</i>	532	748	218	9,714	3,730	14,942
<i>*Youth (13-17)</i>	64	183	22	4,260	1,171	5,700
Resident Demographics Totals:	1,315	1,517	625	15,497	5,218	**24,172

* *The demographics for youth excludes children 0-12*

** *The demographics totals include 5,916 disabled residents*

The sample size shall include a statistically significant number of residents across demographic groups (i.e. Seniors, Adults, Youth 13 to 17) and housing program types indicated above.
