3.3 Evaluation Process, Evaluation Factors (Questions) and Award

The proposal evaluating process is designed to award the contract, not necessarily to the Respondent(s) of least cost, but rather to the Respondent(s) whose proposal represents the best overall value as determined by an evaluation of the best technical score (a combination of qualifications and experience) and price/costs. Evaluations are based upon the evaluation factors and weights specifically established within this RFP.

Respondent(s) must provide all information outlined in the Evaluation Factors (as defined below) for the Respondent's proposal to be considered responsive. The quality of answers rather than length of responses to this RFP is important.

After evaluations, the Evaluation Committee will determine a competitive range. The competitive range includes the proposals that have a reasonable chance of being selected for award considering all aspects of the RFP. AH will negotiate with the Respondent(s) who fall within the competitive range. If required, only those Respondents within the competitive range may be selected for an oral presentation and/or interview.

The presentation/interview process will be arranged to assist the evaluation committee in differentiating those Respondents within the competitive range. Points may be added or deducted from the Respondent's preliminary score as deemed necessary by the evaluation committee. AH reserves the right to negotiate the final scope of services, price, schedule and any and all aspects of this solicitation with all Respondents in the competitive range.

Once negotiations are complete, AH shall establish a date and time for the submission of best and final offers. If a Respondent does not submit a notice of withdrawal of its offer, or a best and final offer, the Respondent's immediate previous offer shall be construed as its best and final offer. The best and final offers shall be evaluated in essentially the same manner as the initial offers unless otherwise specified. The contract shall be awarded to the responsible Respondent whose qualifications, price and other factors considered are the most advantageous to AH.

The maximum points that shall be awarded for each of the Evaluation Factors are detailed and described below.

The establishment, application and interpretation of the above Evaluation Factors (Questions) shall be solely within the discretion of AH. AH reserves the right to determine the suitability of proposals on the basis of all of these factors.
